AN INTERDISCIPLINARY DIALOGUE

HUMAN AND THINGS

The conference explores the intricate relationship between human and things from different perspectives, examining the mutual influences they have had over time. Rooted in Cartesian thought, modernity's view separated humans from the material world, treating it as a determinable "cosmic machine". This perspective has permeated all areas of knowledge and endorsed human dominance over external things. However, the ecological crisis and the rapid tech advancements challenge this mindset. The forefront of scientific thought, driven by the quantum turn in physics, offers a new paradigm of the world as a network where humans and things mutually influence each other. Through a dialogue among scholars from diverse fields the conference promotes an holistic consideration of this relationship, urging a shift from dominance to symbiotic coexistence.

27.09.2024 - h. 14:30-19:00
Fondazione Bruno Kessler - FBK
Sala Grande
Via Santa Croce, 77 - Trento

Welcome address

- **Paolo Carta** - Dean of the Faculty of Law UNITN
- **Paolo Traverso** - Director of Strategic Planning FBK

I session - Reality

- **Ugo Mattei** - Faculty of Law UNITO
(Key Note) The Ecological Paradigm Shift in Law
- **Sara Hejazi** - Center for Sensors and Devices FBK
Human and Things: The End of a Love Story? An Anthropological Perspective
- **Andrea Pradi** - Faculty of Law UNITN
Human, Things and the Law
- **Richard Hall-Wilton** - Center for Sensors and Devices FBK
Objects & Things?
- **Elena Ioriatti** - Faculty of Law UNITN
Modern Physics and Comparative Law: Approximating through Abstract World Map

Coffee Break

- **Caroline Johnson** - Center for Sensors and Devices FBK
The Anthropocene: Evidence we are Human Doings not Human Beings. How a co-productionist Model can explain the Evolution of Humans and Science
- **Luca Pes** - Faculty of Law UNITN
A Different Way to look at the Relationship between Human and Things: Land and Water Rights in the Inner Delta of the Niger River
- **Nicolò Crescini** - Center for Sensors and Devices FBK
Crafting a Qubit, the Simplest Thing of All

Scientific Committee:

Richard Hall-Wilton (FBK), Sara Hejazi (FBK), Elena Ioriatti (UNITN), Massimo Leone (FBK), Ugo Malvagna (UNITN), Andrea Pradi (UNITN)

Attendance is possible both in person and online. For online attendance please send an e-mail to fatimazahra.elharch@unitn.it

This event is co-funded by the European Union - Next Generation EU, within the framework of the PRIN 2022 PNRR call, project "Human well-being in times of tech management of emergency (P20225FPNT) - CUP E53D23021160001 - Scientific Coordinator Ugo Malvagna; by the Faculty project "Diritto comparato quale strumento di individuazione del diritto oggettivo in contesti complessi" n. 40650002 - Scientific Coordinator Elena Ioriatti; and by Fondazione Bruno Kessler.

28.09.2024 - h. 9:00-13:30
University of Trento - Faculty of Law
Sala Conferenze "Fulvio Zuelli"
Via Giuseppe Verdi, 53 - Trento

II Session - Virtuality

- **Massimo Leone** - Center for Religious Studies FBK
(Key Note) On Usurpation: The Rebellion of Objects in the Digital and Quantum Age
- **Ugo Malvagna** - Faculty of Law UNITN
Property Rights and the Blockchain: Digital Assets as "Ownership"?
- **Andrea Rossato** - Dept. of Psychology and Cognitive Science UNITN
Virtual Domains: Intellectual Property, Artificial Intelligence and Computational Power. Between Ideology, Rhetoric and Paradoxes
- **Giorgia Binoletto** - Faculty of Law UNITN
The Human Being and Personal Data. A Reflection between Personalistic Value and Proprietary Perspective

Coffee Break

- **Emanuele Ariano** - Faculty of Law UNITO
Property Logic, Law and AI in the Age of Surveillance Capitalism: Allies or Foes?
- **Helena Haxvig** - Dept. of Information Engineering and Computer Science UNITN
Participatory Design and Artificial Intelligence
- **Fulvio Cortese** - Faculty of Law UNITN
Redefine the Landscape and its Normative Value
- **Stefano Borgo** - Laboratory of Applied Ontology CNR
- **Camilla Perrone** - Department of Architecture UNIFI
Applied Ontology and the Notion of Interaction in the Agent/Thing Dichotomy

Conclusion

- **Pier Giuseppe Monateri** - Faculty of Law UNITO
