Parental Union Dissolution and Children's Emotional and Behavioral Problems: Addressing Selection and Considering the Role of Post-Dissolution Living Arrangements

Peter Fallesen is a Research Professor at the ROCKWOOL Foundation in Copenhagen, a Senior Researcher in Sociology at SOFI, Stockholm University, and a Research Affiliate at Center for Demography and Ecology, University of Wisconsin-Madison. His research interests include the relationship between family processes and inequality, with focus on fertility, union processes, and multigenerational relationships. Recent publications have appeared in *Demography*, *JAMA Pediatrics*, *Population and Development Review*, *Journal of Marriage and Family*, and *Nature Human Behavior*.
