

CITIZEN SCIENCE AND CLIMATE

History and Evolution of Participatory Science

Chiara Fedrigotti and Maria Vittoria Zucchelli

MUSE – Museum of Science, Trento

5 March 2026 – 17.00-18.30

ABSTRACT

The first session offered by MUSE – Museum of Science will focus on the definition and history of Citizen Science, as well as the establishment—at both global and local levels—of associations that have contributed to the spread of Citizen Science worldwide. The main features of Citizen Science projects will be presented, along with the values conveyed through this approach (educational, scientific, social, and political).

Key platforms, technological resources, and applications used in Citizen Science will also be introduced. Participants will have the opportunity to explore and try out some of the most well-known applications.

GrACE – Green Europe: Active Citizenship and the Environment
Jean Monnet Teacher Training – Erasmus+

Project Coordinators: Tiziana Faitini, Michele Nicoletti – University of Trento - Italy
