

FROM OUR ANONIMOUS SURVEYS...

NEMESI Summer 2025

The professors are very responsible, and the students from various places were also very friendly. I learned the content that interested me, and this was a very good experience!

An amazing opportunity to get to know people from around the world and learn new things. Mix of people with different backgrounds and talents made the project truly unique.

This was one of the best working experiences i have experienced, i hope to repeat or take part in the next one.

This NEMESI Summer School was a fresh experience and in the short time I had to spend with other international students and professors. It was enriching toward my academics and provided me with new skills, and gave me an outlook on architecture and engineering which I have never seen before

This summer school is awesome!!! They wouldn't let you down!!!

It was amazing meeting new people and learn about different cultures and architecture of Trento it was truly and amazing experience.

Taking part in the summer school was an incredibly inspiring experience that allowed me to see architecture and design from a new perspective. Working on a public exhibition gave a real sense of agency and purpose. Collaborating with participants from different countries offered valuable connections and a truly international experience. Intensive teamwork helped us quickly build a strong, committed group. I'm deeply grateful for the opportunity to participate, as well as for the financial support, which proved invaluable for a short-term stay abroad.

Experiences like this are the ones you take to your heart and knowledge. You have to go out your comfort zone and see the world. This is a perfect way to do it.

NEMESI was a great time with great people, getting to know so much about architecture

The NEMESI program was the first exchange I ever took part in, and it was one of the best decisions I've made. Coming from Brazil to join this experience was incredibly enriching, filled with learning opportunities and the creation of meaningful friendships. I hope to return here someday. Thank you, University of Trento.

The NEMESI Summer School change my way of thinking in so many aspects. To be in touch with so many cultures and have the opportunity to work with all these different people made the program extremely special. I felt so grateful to have the opportunity to be part of this and leave a part of me in this city and exposition.

It's an experience I would recommend to any student. You travel, learn, and meet different people. I wish it would last longer.

This is a very unforgettable experience. I also learned a lot from it. The professors and tutors are very friendly.

you did such a nice job guys, I'm taking this experience in my heart for the rest of my life

UNIVERSITÀ
DI TRENTO

The program was intense in terms of content but was well planned and I had a wonderful experience all throughout

Thanks everyone and everything is amazing here!

It was an amazing program

maybe a little bit longer project like 3 weeks, to have enough time to prepare event better output and also to have more free time

Everything was perfect

"In general, I love the idea of an exhibition, but in the end we had maybe 4 days to prepare it and that's very ambitious. A bit better coordination and clearer tasks would help, I think. Leaving tasks open is nice for creativity, but this always means a lot of time to find a good concept and elaborate on it.

The program was perfect, but I've missed time to have debates with the teachers and in the first week the days were really exhausting
