# INTERNATIONAL MOBILITY OPPORTUNITIES

International Mobility Office – Science & Technology Area

## What is an international mobility?

A **study, internship** or thesis **research** experience **abroad**, for a **fixed period of time** and to carry out activities **agreed in advance** between the student, the home university and the host institution within a mobility programme.

Such activities will be **recognized** in your academic career as part of your degree.

## LANGUAGE REQUIREMENT

- **Language and level** vary according to mobility programme and destination
- Language level is needed **at the time of application** (all programmes)
- **To learn** a new language you can attend courses at CLA (intensive/extensive) – but the final test is not equivalent to a certification → to be valid a language exam needs to test all 4 linguistic abilities (reading, listening, writing, speaking)
- **International language certifications**: valid for maximum 5 years (check CLA webpage <https://www.cla.unitn.it/en>)
- Check the relevant call to see how you can prove language proficiency

WHAT? WHERE? HOW?

Study

Internship

Thesis  
research

## Erasmus+

### Study:

- **Duration: 1 or 2 semesters (exams, research and internship)**

**Destinations: European partner universities (including those in Switzerland and UK)**

**Scholarship: € 350 or € 400 according to destination + top-up for ISEE for eligible students (rif. 2025/2026)**

**Next call: autumn 2025 for mobilities in 2026/27**

# Erasmus study destinations for bachelor students (ref. Call 2025/26)

HOST UNIVERSITY	COUNTRY

## Industry 5.0: Putting People Back at the Center

In recent years, industry has made great advances. But in this race forward, one essential element is often overlooked: people. At UniTrento, we aim to strive for better well-being and awareness in the industry of the future
