

FROM OUR ANONIMOUS SURVEYS...

**MISOCHANGE Winter 2026**

Met some of the amazing people in these 14 days. Time just flew by.

It was the best experience ever. The best Erasmus Project I've been a part of!

I wrote some comments

An experience you will never forget. A sense of joy that will stay with you. You might leave Trento but Trento will forever be with you in your heart. Wo much love for the people I've met and the staff!

Participating in the MISOCHANGE Winter School was an enriching and inspiring experience. The programme stood out for its high academic quality, strong interdisciplinarity, and a truly international and diverse group of participants.

Equally impressive were the social programme and trips we took. Set in a beautiful location, the winter school offered a well-balanced combination of academic excellence, cultural experiences, and social interaction, making these two weeks both intellectually rewarding and personally memorable.

Misochange is a successful program because every student here is coming out of this program with not just more knowledge about the topics we discussed but also with more memories and experiences that we will carry with us for the rest of our lives.

When you come to Trento be ready to meet people that will become your closest friends. This city will stay in your heart forever

The MISOCHANGE winter school was a perfect opportunity to study in the beautiful city Trento surrounded by mountains and lakes. I had a great time exploring the Trentino region in the trips planned by the university in which we went to Riva del Garda and Monte Bondone. Apart from that, the winter school was a great opportunity to meet new people from different countries and I appreciated the cultural diversity a lot. The teaching quality was also really good and we learnt a lot of different aspects about migration. The professors were open to our questions and I felt overall really welcomed by the university as well as the nice staff. I truly had a great experience and I hope that the winter school will be continued in the future.

For the first time in my life, I experienced something so full, joyful, magical, kind, and filled with love all at the same time. I am happy that I discovered UniTrento.

I was satisfied with Italy.

Amazing food and great people, pizza and pasta took my breath away! All the bars have an unique vibe.

It's an amazing program that holds the most fun and the top academicians in the field. Throughout the two weeks, you will enjoy the most joy and learning.

"Participating in the two-week KIP program in Italy within the Erasmus framework was a deeply enriching experience that went far beyond academic learning. From the very beginning, I felt a strong connection to the theme of the program, as I recognized it as an opportunity to link my legal background with broader social

perspectives. Very soon, I realized that the program did not focus only on law, but also offered a strong sociological dimension, which opened new horizons for me and enriched my understanding of social realities.

What I found particularly valuable was the interdisciplinary approach. Viewing legal issues through a sociological lens helped me understand that law is not merely a system of rules, but a living structure shaped by people, relationships, and social contexts. This perspective awakened a deeper interest in connecting law and sociology and strengthened my desire to continue expanding my knowledge in this direction.

The academic content of the program was both engaging and practice-oriented. I became familiar with different research methods, gained experience in interviewing people, and learned new ways of expressing ideas and listening to others. I was particularly fascinated by the Photovoice method, which is based on documenting social realities through photographs and interviews with people. This technique deeply impressed me, as it allows individuals to express their experiences and emotions through images, which then become a powerful starting point for dialogue. Before this program, I had never encountered such a method, and discovering it felt truly inspiring. It awakened in me a strong desire to work with the Photovoice technique in the future and to explore how it could be used to connect legal and sociological perspectives in innovative ways.

Equally meaningful were the encounters with professors and young researchers, mostly at the master's and doctoral levels. Their passion for knowledge, openness, and dedication were truly inspiring. Through discussions with them, I felt encouraged to reflect more deeply on my own academic path and future goals.

Beyond the academic part, the program also offered a rich social and cultural experience. I had the opportunity to visit beautiful Italian cities, enjoy the breath-taking views of the Alps, and spend time reflecting on my personal growth. The moments shared with participants from different countries created a warm, supportive atmosphere and led to friendships and memories that I will cherish for a long time.

I am deeply grateful to the Erasmus program, my university, and University of Trento for this opportunity. The KIP program was not just a study exchange for me, but an important milestone in my academic and personal journey. It broadened my perspectives, strengthened my motivation, and showed me how powerful and meaningful learning can be when it is shared with others."

This was truly an immersive experience with multiculturalism, rooted in theory exploration with so many brilliant minds. Truly grateful for the opportunity to be here

This program was probably my last opportunity to attend lectures. I felt many regrets and weaknesses during these two weeks, but the warm and welcoming environment made it a fond memory. Thank you very much.

I loved the winter school. I made great friendships, I fell in love with Trento and the people responsible for us. I learned a lot and this trip allowed me to reset from all my worries back home. This an unforgettable experience.

One of the best experiences I ever had. It was a perfect mix of active learning, fun, hands-on discovery and moments that actually stuck with me.

MISOCHANGE Winter School was a fantastic experience for me. Even though I was not familiar with the topic before, I feel I complete this two-week long project with new knowledge and awareness. What is more, I met there so many great people from around the world which I believe is a true value of university projects :)
