83 **From 0 to 10** March 7

82 **Harder, Better, Faster, Stronger** February 17

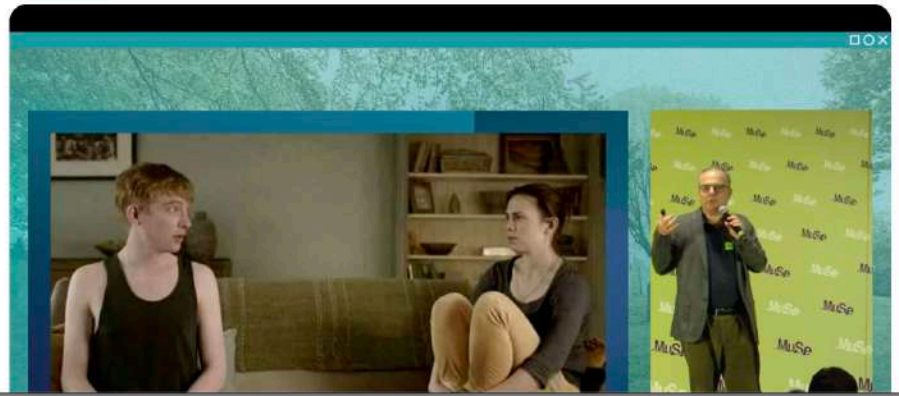

81 **La città invisibile** January 29

Vita, morte e immortalità nell'era dell'intelligenza artificiale e dei deepfake

Giovanni Ziccardi, Professore di Informatica Giuridica @ Università degli Studi di Milano

Questo talk esplora come l'intelligenza artificiale e le tecniche di deepfake stiano ridefinendo i confini tra vita, morte e identità nell'era digitale. Attraverso esempi di cloni e avatar post-mortem, mette in luce come la tecnologia consenta nuove forme di "immortalità" che sfumano il limite tra memoria e presenza, affrontando le implicazioni etiche, giuridiche e psicologiche di questa metamorfosi, interrogandosi su chi possieda l'identità digitale dei defunti e su come cambino il lutto, la memoria e la percezione di sé.
